

Contribute to the Dugong ♥ Flag Campaign!

Let's raise our voices to save the dugong!

Unite across the globe to speak out to protect the dugong!

IUCN* World Conservation Congress will take place on Jeju Island in South Korea. Held once every for years, the Congress has declared the Dugong a species in need of special protection for the past straight three congresses in 2000, 2004, 2008. Movements to protect the dugong have been starting all over the world.

In order to express at the World Congress in 2012 our hopes to protect the richness of the sea where the dugong lives, we have started a Dugong Flag Campaign. By all means, share your statement about protecting the dugong on a flag with us! We will display your flag at the Congress!

Let's start a commotion in Jeju Island!

* SDCC is an official member of the IUCN (International Union for the Conservation of Nature), the world's largest environmental protection organization.

To participate in the Dugong Flag Campaign, just write your message and / or draw your illustration on a 20x20cm cloth with permanent marker or acrylic paint. Feel free to use recycled cloth to make your flag. We will display all of the flags that we receive. Please send your flag(s) to one of the SDCC offices below.
